

Safety Live Tracking Dashboard

Location : Filter (All as default)

Area : Filter (All as default)

Total No of Assets
350

Breakdown
43

Moving Asset
261

Non-moving Asset
20

DFMS down
26

Clicking on every item should show a detailed table about vehicles/Loco, their location, GPS link

50

Total No of Alerts

30

Alerts with action Taken

30

Alerts with Pending Action

10

Alerts pending for more than 5 mins

2

Repeated Alerts for same asset

Speed Violation Alert 20

Drowsiness Alert 05

Distraction Alert 09

Risky Driving Alert 01

Parked in No-parking Zone 15

A Simple table showing all alerts as per their severity :

Vehicle No	Transporter	Alert time	Location	Driver name	Live track	Contact number

Upon clicking these alerts bars there should be a DFMS video screen

Efficiency Live Tracking Dashboard

Stopped
20

GPS down
26

Clicking on every item should show a detailed table about vehicles/Loco, their location, GPS link

30

No of Vehicles delayed during transit

10

Vehicles in High Alert Zones/ Restricted Zones

2

No of Vehicles non-moving for more than an hour / XX time

There should be an option to shift person to provide a reason from dropdown list

Vehicle No	Transporter	Location	1-2 Day Delay	2-3 Days Delay	>3 Days delay	Live track	Contact number

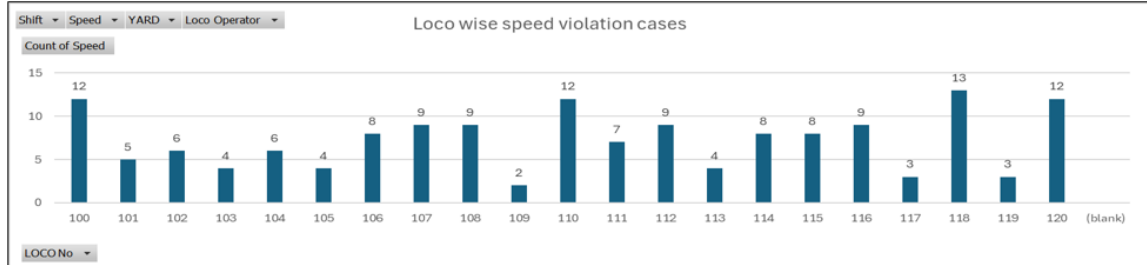

ALERT: Severe Weather Warning in Midwest Region Affecting Road Transit. Rail Operations Normal. Critical Alert: High Detention Rates at Port X. Data Last Updated: 15:20:45 UTC

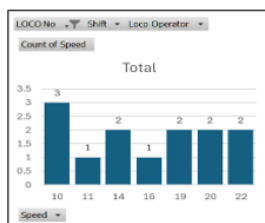

Report 1

A. Loco wise speed violation cases along with filter for Shift / Speed/Yard/Loco operator

B. Double click on any Loco should give histogram of speed violation incidents at different speeds

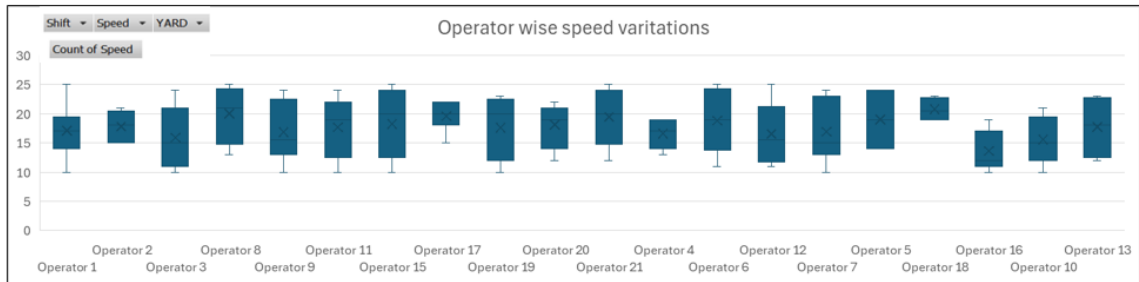

Double click on any LOCO should give Histogram of speed violation cases

C. Switchable option for graph should be a downloadable dump for speed violation cases

Date	LOCO No	YARD	Loco Operator	Shift	Speed	Location	Moving hours
27/05/2025	120	EMY	Operator 1	Shift A	25	Location20	2
27/05/2025	106	RRY	Operator 1	Shift A	15	Location15	2
